EXPERIENCE

Inmotion Hosting
May 2014 – Present

- Lead front-end developer for hosting companies, InMotion Hosting and Web Hosting Hub
- Built www.webhostinghub.com backend with Silex PHP micro-framework and front-end with HTML5, CSS3, JavaScript and jQuery
- Manipulate and restructure the main site (inmotionhosting.com) to be responsive by changing all code for Twitter Bootstrap.
- Learned Git, how to work on Linux (Ubuntu), and how to use PHP and Ruby frameworks (Silex, Symfony, Sinatra)
- Set up dev environment for whole team using Ubuntu/Xubuntu
- Make landing pages for affiliates and manipulate databases with MySQL and SQLite

The Art Institute of Los Angeles Library
March 2013 – June 2014

- Designed flyers, brochure, and digital displays
- Helped organize library
